

Computers

All the horrors of the internet at your fingertips!

- Terminal
- Computer Room
- Mainframe

Terminal

Cost □3 <1

A solitary terminal allowing internet access. It's a bit slow...

Computer Room

Cost $\square 6$ $\diamond 2$ $\heartsuit 2$

More computers! Better internet access lets you keep up to date on current news and techniques, giving a +1 item bonus to Piloting, Computers, Arcana, Lore, Medicine, Nature, Occultism, Religion, and Society until you long rest while off the ship. The bonuses come back once you long rest on the ship.

Mainframe

Cost $\square 10$ $\diamond 3$ ≤ 3

Lots of computery bits allow for long range hacking, ship to ship or ship to ground. This can be useful for many missions, and is quite versatile.
